About us.

InCommerceLLC was established in 2010 as an option for the marketing and distribution of natural and healthy products from Colombia and other South American countries into the North American market. Colombia has been known for developing quality products and has also received high recognition as an innovative and safe producer of food goods.

InCommerceLLC is located in Bridgeport, Connecticut and is led by a group of people who have more than 18 years experience in the regional Retail Market and which have more than 30 years experience in International Markets. This experience provides our company with strength and stability that will enable growth and expansion.

Our customers are the most important part of our business, and we work tirelessly to insure your complete satisfaction, now and for as long as we work together.

All of our products are certified Kosher and some are certified Organic.

Please feel free to contact anyone of the persons listed below. We will be glad to provide you with more information.

Thank you

*for taking the time and hoping
to hear from you soon.*

COLOMBIAN BANANAS & GREEN PLANTAINS

BANANA PLANTAIN

Bananas are one of the world's most appealing fruits. Global banana exports reached about 18 million tons in 2020, according to the United Nations. About half of them went to the United States and the European market. In the United States, each person eats 11.4 lbs. of bananas per year, according to the US **DEPARTMENT OF AGRICULTURE**, making it Americans' favorite fresh fruit.

A wide variety of health benefits are associated with the curvy yellow fruit. Bananas are high in potassium and pectin, a form of fiber, and they can also be a good way to get magnesium and vitamins C and B6.

Bananas are known to reduce swelling, protect against developing TYPE 2 **DIABETES**, aid in weight loss, strengthen the nervous system and help with production of white blood cells, all due to the high level of vitamin B6 that bananas contain.

Bananas are high in antioxidants, which can provide protection from free radicals, which we come into contact with every day, from the sunlight to the lotion you put on your skin.

Plantains, also known as plátanos, are closely related cultivars of fruit or dessert banana. In general, they are treated as vegetables in the kitchen much like fellow tropical produces such as potatoes, taro, breadfruit, yam, sweet-potatoes, etc. Indeed, plátano is one of the staple sources of carbohydrates for larger populations in Asia, Oceania, Africa, and Central and South Americas for centuries served in main meals.

·Plantain relatively has more calories weight for weight than that in the table bananas. 100 g plantain holds about 122 calories, while dessert banana has only 89 calories. Indeed, they are very reliable sources of starch and energy; ensuring food security for millions of inhabitants worldwide.

·It contains 2.3 g of dietary fiber per 100 g (6% of DRA per 100 g). The adequate amount of dietary fiber in the food helps regular bowel movements, thereby reducing constipation problems.

·Fresh plátanos have more vitamin-C than bananas. 100 g provides 18.4 mg or 31% of daily required levels of this vitamin. Consumption of foods rich in vitamin-C helps the body develop resistance against infectious agents and scavenge harmful oxygen-free radicals. However, boiling and cooking destroys much of this vitamin in plantains.

Technical Data SHEET 004

Premium banana Lolita

PRODUCT: DESCRIPTION

Product: Green Banana
Variety: Banana Cavendish
Family: Musa Spp
Certification: 08.03.10
Presentation: green Fresh
Banana

PACKAGING AND PROCESS

Fruit Net Weight 18.6 Kilograms Material
Weigth(Case) 14 Kilo-grams
Gross Weight: 20 Kilograms
Fruit Wash: Washing and stain control using wire
Treatments: Fungicide spray

QUALITY

Fruit Age: 9 to 11Weeks
Length: Minimum 8" from pulp to tip Grade:
Grade Min 32 – Grade Max 48 Cicatrization: 0.2
square inches per finger, 0,4 square inches per
segment Max. finger/segment: 8
Max: segment/case: 20
Max: finger/case: 120

MATERIALS AND FRUIT PACKAGING

Packing Material: 6.5 caliber corrugate
cardboard boxes (H 23.8 cms., L 50 cms.,
W 38.5 cms.) Desing upon request or
prior agreement with the buyer
Packing: Polypack bag
Stamped Fruit: Lolita Stamp, 20 to 24
stamps per superior lines
Cases per pallet: 48 to 54 cases
according quantites
Traceability: Marking of the registration
number of the producing property on
each box
Whith SSCC codes on each pallet

TRANSPORT

Container: Reefer High Cube
Temperature: 13.3 C – 55.94 F
Humidity: 0%
Ventilation: 25 CMH
